

# MOW WEEKLY UPDATE!

10/11/2010

---

Hello MOW folks, it is time for your MOW Weekly Update! We have been busy during the last week here is your chance to be part of the action even if you were not there for the actual action.

## **WEEK IN REVIEW:**

**Tuesday:** We worked behind the museum. Positioned the containers, brought over from Clunie siding. We sealed the back half of the container while installing rail and ramps to allow our motorcars access in and out of the containers.

**Thursday:** A small crew worked on track in Miller park. We adjusted a off center tie. Brenton ran the wind machine to clean off part of the track and Richard used a weed eater to clean some weeds in setzer area.

**Saturday:** Was Canceled

## **WEEK AHEAD:**

**Tuesday:** We will be busy in the shops. We start around 3:00 p.m. for those willing to be there at around 3:00 p.m. and at 5:00 p.m. for those forced to work for a living.

**Thursday:** We meet at the shops at 5:00 p.m.

**Saturday:** This Saturday we will be busy with MOW working on the track. There is a special train running in the Old Sac. area but we are going to be living the MOW life out on the line doing all the good things that MOW does with railroad track. We meet at the shops at 8:00 a.m.

See you out on the line,

John, Sandy, and Chris
