

# MOW WEEKLY UPDATE!

4/26/2011

---

Hello MOW Folks and welcome back to the MOW Weekly Update. As you sit by the warm glow of your computer screen we hope you enjoy this little update on the happenings of MOW both past and future.

## WEEK IN REVIEW:

**Tuesday:** There was work in the shops and work out on the line. Cliff, Gene, and Pat worked on the rock shaker, while Mike worked on the section gang machine. Ron, Richard, Heather, and John took the bolt machine out and worked on the track around M.P. 1.3.

**Thursday:** More work around the shop. Started out with work on the shop switch, then proceeded to perform a track inspection.

**Saturday:** Dedicated crew of volunteers went out on the line and braved the first operation day of the year. We worked on changing ties at M.P. 2.7 until equipment failure cut short our adventure. For those interested please watch the brief video of the day, link at bottom of the update.

## WEEK AHEAD:

**Tuesday:** We will be working in the shops. We will start around 5:00 p.m.

**Thursday:** More work in the shops starting at 5:00 p.m.

**Saturday:** There may be some track work for the crew starting around 8:00 a.m. at the shops

See you out on the line,

John, Sandy, and Chris
